EXPERIENCE

Red Van - New Balance, Remote — *Senior Fullstack Engineer*

AUG 2021 - PRESENT

Working with Product Discovery and implementing new search and product grid features.

Developed and launched an in-house tool for NB store associates leveraging SF's Composable product known as PWAKit React Application

Optimized Product Grid Page performance and decreased load times by 40% on PWA kit app

Member of the internal AI-Cop. Worked on auditing developer tools and contributing AI inspired solutions to the storefront and internal systems

Red Van, Remote — *Senior Salesforce Commerce Cloud Developer*

AUG 2020 - PRESENT

Full stack engineer delivering highly custom and optimized storefronts

Over the years, I have helped various brands such as Claires, Vermont Teddy Bear, Lush, and Warrior increase conversion rates and click through rates by developing unique page elements and leveraging modern backend optimizations

LiveArea, Allen, TX — *Technical Lead*

MAY 2018 - AUG 2020

Initiated and developed SFCC (SFRA) LINK Cartridges - Aurus and Bloomreach.

Integrated payment processors and payment providers such as Aurus and PayPal

Mentored and led in-house engineers to success by identifying key strengths and helped them in developing their technical and collaboration skills

LiveArea, Allen, TX — *Senior Software Engineer*

OCT 2015 - MAY 2018

Developed eCommerce solutions for big retail giants like Procter & Gamble, Party City, and Movado

Worked effortlessly with large distributed teams and small in-house teams

Integrated a custom OMS system, into PG's Olay Storefront, similar to Uber Eats, to decrease shipping time

SKILLS

Expert in Salesforce Commerce Cloud
